Come learn about the OWIPA project and what services they provide for transition age youth! The goal of the program is to enable beneficiaries with disabilities to receive accurate information, and use that information to make a successful transition to work.

The OWIPA Project provides direct work incentives planning and assistance services to disability beneficiaries receiving Supplemental Security Income (SSI) and/or Social Security Disability Insurance (SSDI) beneficiaries across the state of Oklahoma to assist them in their employment efforts. The OWIPA staff support beneficiaries in retaining/sustaining meaningful employment at significant earnings levels, and by doing so, seek to improve their economic security.

Learn about the critical benefit issues and find out about a powerful work incentive for YOUTH as they move forward from school to work.

Behavior Management Strategies for Families

Children do not come with an instruction manual, and even if they did, who would have the time to read it?!

As parents, we often feel as if we are stumbling through our day wondering if we are making the right decisions. It seems as if everyone has an opinion about your child's challenging behavior but no one has an answer.

In this brief training video, you will learn a few tips, techniques, and strategies to prevent and address common challenging behaviors as well as to increase your confidence in your parenting skills. It isn't the complete answer, but it will provide some quick and easy strategies for everyday use that actually work! Are you ready for a change?
