CONFERENCE OVERVIEW

Skill preparation and planning for healthcare transition for children and youth with special healthcare needs is inadequate. Less than 50 percent of families nationwide indicate that their children with special healthcare needs have received the services necessary to make appropriate transitions to adult healthcare, work, and independence. One of the major hurdles to receiving this care is the lack of a workforce, including physicians, nurses, social workers, mental health providers and all who provide services to youth and young adults with special healthcare needs trained to provide the services necessary to make the healthcare transition. There is a strong need for physicians to have the knowledge and skills to provide the services needed to facilitate a successful transition from pediatric to adult-based care and services.

Because of increased awareness of transitioning to adult-based care, clinicians are required to update their knowledge of the changing strategies for integrating emerging adult-based care into practice.

For all conference participants, there will be a discussion of the legal issues involved in healthcare transition, as well as time to meet and talk with faculty in small groups, to exchange ideas among participants, and to share knowledge and information about how best to plan for a successful transition to adulthood.

TARGET AUDIENCE

Physicians in internal medicine, family practice, pediatrics, psychiatry, and physiatry; other healthcare providers including psychologists, social workers, nurses, dietitians, case managers, counselors, and primary care providers; and youth and young adults who have a chronic illness or disability and their parents or guardians.

OBJECTIVES

At the conclusion of the conference, participants should be able to:

- Describe strategies for setting up a transition program.
- Describe successful methods for discussing reproductive and sexual health topics for young women with pediatric-onset chronic disease.
- Discuss method to help entering college students with mental health issues transition to college
- Describe the basic requirements, purpose and differences of different benefit programs for youth and young adults with chronic illness and disability.
- Describe the basic principles of inclusion and diversity in healthcare transition programs for youth and young adults with chronic illness and disability.
- Describe the legal issues associated with transition from pediatric to adult-based care
- Discuss the new AAP/AAFP/ACP Clinical Report on Health Care Transition

EDUCATIONAL METHODS

Lecture ■ Meet the Faculty Sessions ■ Breakout Sessions
■ Question and Answer Sessions

EVALUATION

A questionnaire will be used to evaluate and address program content, presentation, and possible bias.

DISCLOSURE POLICY

To meet the requirements of the Accreditation Council for Continuing Medical Education (ACCME), it is the policy of Baylor College of Medicine that all individuals who are in a position to control the content of the CME activity (activity director, planning committee members, and faculty) disclose relevant financial relationships with commercial interests. All identified conflicts of interest are managed to help ensure that the educational material is scientifically based, accurate, current, and objectively presented. Specific disclosure will be made to the participants before the educational activity.

Registration for, attendance at, and/or participation in this activity constitutes acknowledgment by the registrant/attendee/participant that photos may be made of the conference events and constitute agreement by the registrant/attendee/participant that Baylor College of Medicine may use and distribute in its publications, on its website, and in the conference proceedings, such photos that include the image of the registrant/attendee/participant.

By participating in the activity, the registrant/attendee/participant acknowledges that he/she agrees to these stipulations. Audio or videotaping is prohibited without written permission from the Activity Director and the Office of Continuing Medical Education, Baylor College of Medicine, Houston, Texas.

CANCELLATION/REFUND POLICY

Requests for registration refunds must be in writing and received by the OCME at least 10 business days before the activity begins. The date the request is received by the OCME will be considered the cancellation date. Requests received after the refund deadline will not be processed. Cancellations are subject to a \$50 administrative fee to be deducted from the paid registration fee to cover guarantees and other expenses. Requests should be emailed to cme@bcm.edu or faxed to 713.798.7955.

The OCME reserves the right to cancel activities, not less than 10 business days before the scheduled date, if extenuating circumstances make it necessary. Registrants will be notified at the contact number indicated on the registration form and again in writing. If an activity is cancelled, the OCME's liability is limited to the paid registration fee. Note: If the registration payment was made by check, a Social Security number is required to process the refund.

10th Annual Health Care Transition Research Consortium Symposium

WEDNESDAY, OCTOBER 24, 2018 ■ 7:30 AM - 5:00 PM

MD Anderson Cancer Center | Mitchell Basic Sciences Research Building
6767 Bertner Avenue, Onstead Auditorium, 3rd Floor • Houston, TX 77030

This October 24th event is not designated for CME or CE credit.

OVERVIEW

The *10th Annual Health Care Transition Research Consortium Symposium* features research presentations in the emerging field of healthcare transition (HCT). A variety of research topics of interest to researchers, clinicians, policymakers, parents, youth, and emerging adults are presented. Topics include testing of HCT models of care and programs, the HCT needs and experiences of adolescents, emerging adults and families, and provider topics pertaining to pretransition and posttransition services and training. Poster sessions on HCT research will enable direct dialogue with researchers, and plenary sessions will address interdisciplinary perspectives pertaining to HCT education and curriculum development and the creation, maintenance, and evaluation of HCT programs.

REGISTRATION

Registration is required for all participants. The fee is \$100 for all participants.
